Subject: Microsoft Settlement

It is about time to bring the microsoft case to a conclusion in line with the settlement already agreed to by the presiding judge and Microsoft. This case has cost the government as well as Microsoft millions of dollars to no good purpose. If it were not for Microsoft this country would probably not be the technological leader of the world as we are now. Why try to murder a highly successful American company which has benefited this country so much, in order to please some disgruntled competitors and feed some greedy state Attorneys General who hope to make a pile of money for their state treasuries and a name for themselves personally. Please stick to the agreement that has already been reached and conclude this matter as early as possible. Thanks.
